

ND8212W

4-CH Embedded Wi-Fi NVR

H.264 • 1x HDD • HDMI • Wi-Fi • VIVOCLOUD • ONVIF •
Support 4CH Wi-Fi + 4CH Wired

VIVOTEK's ND8212W is a H.264 4-CH Linux-based standalone Wi-Fi NVR that supports a single 3.5" HDD up to 6TB. The ND8212W supports remote access via VIVOTEK's VIVOCLOUD and iViewer apps for both iOS and Android mobile devices, enabling users access to their video anytime, anywhere. The VIVOCLOUD app provides instant push notification and direct video playback functionalities when triggered by an alarm notification, providing seamless security for small-sized video surveillance applications.

Furthermore, the ND8212W is fully integrated with VIVOTEK's VAST/VAST 2 VMS, so users can enjoy the easy-to-use IP surveillance system to protect lives and property more efficiently. With a compact size and fan-less design, the ND8212W is ideal for any small-scale video surveillance installation.

Key Features

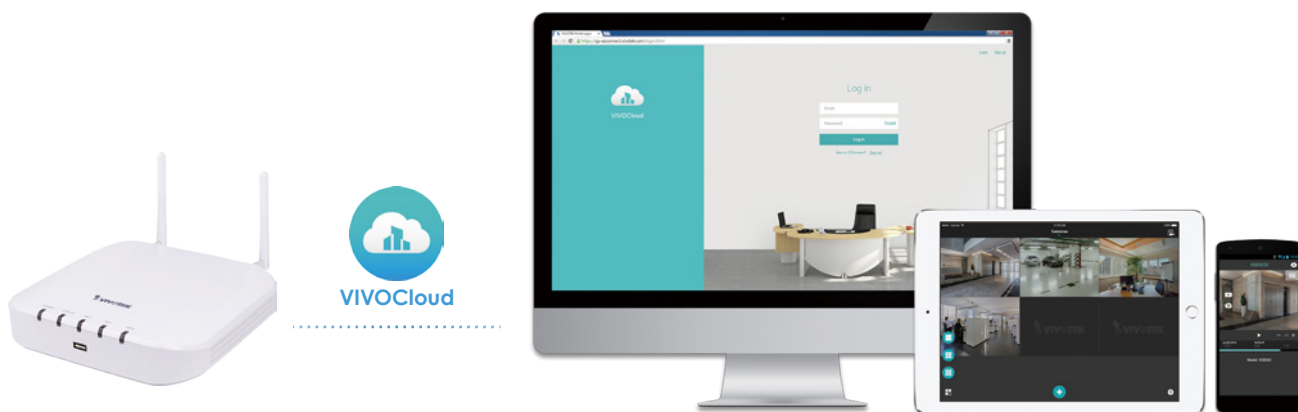

- H.264 Compression Technology
- Up to 4CH Wi-Fi + 4CH Wired IP Camera Input
- HDMI Video Output up to 4K Resolution
- 1 x 3.5" SATA HDD up to 6TB
- Up to 8MP Camera Liveview and Playback
- VIVOCLOUD App & Portal for 24/7 Viewing
- Easy Connection with IP Cameras and Quick Auto Setup
- Instant Playback Fisheye Dewarp
- 2.4Ghz 802.11 b/g/n Wi-Fi Connection
- ONVIF Compliance (Project Support Function)
- Compact Size with Fanless Design

Highlight Features

VIVOCloud App & Portal for 24/7 Viewing

The free VIVOCloud app makes surveillance lightweight and portable, ensuring efficient operation. The latest P2P technology makes remote access even more convenient, by simply scanning the QR-code and installing the app, users can view live streams and play recorded clips

with the intuitive interface anytime, anywhere. Armed with the Push Notification function, users will directly get an alert message on their Android/iOS mobile device and directly playback the video to check for any suspicious activity.

Easy Connection with IP Cameras and Quick Auto Setup

In order to provide users a highly intuitive experience, WPS allows for the IP cameras' positions and connects to the NVR without entering long passphrases. Auto Setup Wizard then conveniently sets up a centralized configuration to reduce connection times to within 4 minutes.

WPS connects to the "NVR and IP Cameras" versus "Router and IP Cameras". It not only saves time up to 60%, but also greatly reduces the difficulty of the device's settings. Honest to say, users may not know what happens between the connection of the NVR and the router.

Highlight Features

Enjoy the Benefits of Wi-Fi

This next generation NVR supports up to 4 IP cameras via 2.4Ghz Wi-Fi connection.

- Easy installation without spending more huge cost and time.
- No drilling and network socket needed.
- Less potential damage and more aesthetically pleasing.
- Easily move or reposition after installed.

4 Display Modes for Fisheye Dewarp

VIVOTEK's fisheye camera is able to provide 360 degree coverage for wide, open areas, such as retail stores, offices and more. VIVOTEK's NVR offers four display modes for one fisheye network camera simultaneously:

LiveView, Playback, Snapshot and Instant Playback. With VIVOTEK's unique technology Instant Playback Dewarp, users can quickly review the image and react immediately.

4CH 1080P Resolution Video Storage over 40 Days

To provide both high-quality video and longer duration storage, the NVR allows users to effectively record 1080P resolution video continuously for up to 40 days without any extra monthly fee. This is the best choice to satisfy users' recording needs. (video throughput: 3M)

IP8160

IP8160-W

Cube Network Camera

2MP · 8M IR · Smart Stream II · AEC · PoE ·
WiFi · Compact Size

VIVOTEK's IP8160/IP8160-W is a stylish 2-megapixel cube network camera specifically designed for small-scale retail security applications. With a resolution of 1920x1080 at 30 fps, a removable IR-cut filter and built-in IR illuminators effective up to 8 meters, this remarkable camera provides users with superior image quality around the clock.

When coupled with VIVOTEK's Smart Stream II technology, the IP8160/IP8160-W can reduce both bandwidth and storage consumption by up to 50%* while retaining the same superb image quality as a Full HD camera.

Further, the camera supports two-way audio, and employs Acoustic Echo Cancellation (AEC) to greatly enhance audio quality and provide a clearer, smoother auditory image. VIVOTEK provides two easy-to-install options for this compact camera; the IP8160-W boasts a 802.11b/g/n compatible wireless connection, and the IP8160 is designed for Power over Ethernet (PoE) functionality, making setup of these two powerful cameras both quick and simple.

* Depending on scenes

Key Features

- 30 fps @ 1920x1080
- Built-in IR Illuminators up to 8 M
- Smart IR Technology to Avoid Overexposure
- Smart Stream II to Optimize Bandwidth Efficiency
- Built-in Microphone and Speaker for Two-way Audio
- Acoustic Echo Cancellation (AEC) for Optimizing Sound System
- Built-in 802.3af Compliant PoE (IP8160)
- Built-in 802.11 b/g/n WLAN (IP8160-W)
- Built-in MicroSD/SDHC/SDXC Card Slot for On-board Storage
- Compact Design
