XILENT BREEZE

With the XILENT BREEZE Performance A+ case, we are entering our into our Advanced + series. The case offers numerous possibilities to furnish the interior individually and without problems.

In addition, the tempered glass side panel provides a crystal clear view of the installed components.
Due to the three ARGB fans on the front panel and the Full Diamond Mesh front, it not only convinces visually, but proves to be a true performance monster!

Highlights

- Full Diamond Mesh front with three ARGB Xilence fans and one black 120mm PWM fan pre-installed in the back
- No visible screws on the tempered glass side panel, screwing from the back for a clean look
- With 220 mm width, the housing provides more space for proper air circulation
- Suitable for water cooling systems with 360mm, 280mm and 240mm radiators in the front 280mm or 240mm radiators on top | 120mm radiator in the back
