## Gaming Series

# 120mm ARGB PWM Fan XPF120G.ARGB.PWM

This outstanding 120mm fan is an ideal addition to any gaming PC, promising impressive performance and stunning ARGB lighting with low noise levels.

The XPF120G.ARGB.PWM fan features an integrated PWM function that allows for precise control of the fan speed to ensure optimal cooling performance. Even during demanding gaming sessions, this fan guarantees good and quiet airflow.

One outstanding feature of this fan is its ARGB lighting. The vibrant lighting effects extend beyond the fan core, creating an impressive display of colors. The lighting can be customized individually to make the PC shine in a variety of colors.

The fan can be mounted both inside the case and on a radiator or CPU cooler.

## Product Features

- Transparent design for enhanced lighting effects
- Optimal performance in any situation
- With PWM function
- Quiet, cooling airflow during intense gaming sessions

## Technical Data

| | |
|---|---|
| Fan Dimensions | 120 x 120 x 25mm |
| Connector Type | 4PIN |
| Connector Type LED | 5V ARGB 3pin |
| Noise Level | 18 - 29 db(A) |
| PWM | PWM |
| Fan Bearing | Hydro Bearing |
| Air Flow | 66 CFM |
| Fan Speed | 500 - 1800 RPM ± 10% |
| Weight | 146g |
| Operating time | 50000 H* |

*Laboratory value; strongly dependent on temperature and environmental influences.

## Logistical Data

| | |
|---|---|
| Manufacturer Number | XPF120G.ARGB.PWM |
| Item Number | XF092 |
| EAN Barcode | 4044953503641 |
