

Performance X Series

XPF120X.ARGB 120mm PWM ARGB Case Fan

The XPF120X.ARGB is the perfect case fan for gaming enthusiasts who value quiet cooling and stylish design.

With its 120 mm format and PWM control, it ensures precise and efficient air circulation that keeps the system cool even during intensive use.

The integrated ARGB lighting gives the gaming setup an impressive atmosphere, while the sleek design fits effortlessly into any case. Thanks to the user-friendly mounting, the fan is quickly installed and ready for immediate use.

Product highlights

- Individually customizable lighting for a unique gaming experience
- Optimized fan blades and vibration-damping pads for whisper-quiet operation
- 120 mm fan with PWM control for precise temperature control
- The simple design fits into almost any gaming build
- Durable hydro bearings for quiet and reliable operation
- Quiet noise level even at higher power
